EDUCATION

- B.Tech (UG), Anna University – Karpagam College of Engineering, Coimbatore (2026) – CGPA: 7.6
- HSC, State Board – S D Eaden Matric Higher Secondary School, Vadalur (2022) – 85%
- SSLC, State Board – S D Eaden Matric Higher Secondary School, Vadalur (2020) – 91%

SKILL SET

- **Programming:** C, Java, JavaScript
- **Web Development:** HTML, CSS, React.js, Bootstrap CSS, Tailwind CSS, Spring Boot, Node.js, Express.js
- **Databases :** MySQL, MongoDB
- **Tools :** Git, Docker, Jenkins, AWS
- **Operating System :** Linux

KEY PROJECTS

Thinker | Serverless Notes Management Application | Cloud Backend Developer [Sep 2025]

- Built a fully serverless Notes Management backend using **AWS Lambda**, **API Gateway**, and **DynamoDB** delivering a scalable, high-availability REST API with zero server maintenance.
- Implemented CRUD operations with **IAM** role-based access control and integrated **CloudWatch** logging for real time monitoring, improving reliability and operational visibility.

Tech Stack : AWS, Node.js, Insomnia

Cityzen - Portal | Citizen Management System | Full Stack Developer  [Jul 2025]

- **Built scalable micro-services** with **Spring Boot**, delivering secure JWT Authentication, document storage, volunteer management, news feed, and utility booking services.
- **Developed and deployed REST APIs** for Authentication, File uploads, Locker management, and Service booking, using **MongoDB & MySQL**, with **Dockerized containers**.
- Created responsive frontend interfaces using **React.js**, ensuring smooth access and user-friendly experience for users.

Tech Stack : React.js , MongoDB, MySQL, Spring Boot, Docker, Vercel, Render, Jenkins

Dhruva | Event Management | Full Stack Developer ³ [Mar 2025]

- Developed a **React** web app that allows students to register for college events easily, ensuring seamless access on desktops and mobile devices.
- Developed a secure, role-based event management system with an intuitive admin UI and Express.js REST APIs protected by JWT, enabling coordinators to manage event details and participants with real-time updates and streamlined controls.

Tech Stack : React.js, Node.js, Express.js, MongoDB, Tailwind CSS, Vercel

Develop Your Skills | E - Learning Platform | Freelance | Full Stack Developer ³ [Oct 2024]

- Built a powerful microservices-driven MERN e-learning platform that aggregates top open-source YouTube tutorials, delivering a seamless and efficient learning experience.
- Engineered independently scalable REST microservices using Express.js, optimizing MongoDB for high-performance data processing and real-time course delivery at scale.
- Developed a clean, role-based React UI that dynamically adapts features for admins, instructors, and learners, ensuring a secure and personalized user experience.

Tech Stack : React.js , Node.js , Express.js , MongoDB, Bootstrap, Docker

CERTIFICATIONS

- AWS Cloud Practitioner Essentials [Nov 2025]
- Developing Back-End Apps with Node.js and Express by IBM - Coursera [Jun 2025]
- Advanced React by Meta - Coursera [Jan 2025]
- React by Meta - Coursera [Aug 2024]
- Introduction to MongoDB - MongoDB [Aug 2024]

INTERNSHIP

Haskel AI – Frontend Developer [Feb 2025 – present]

- During my internship, I contributed as a Frontend Developer to an LMS project, building clean and responsive user interfaces. I integrated REST APIs to ensure smooth data flow and real-time interactions.
- I optimized UI components for performance and consistency across the platform. This experience strengthened my frontend development skills and enhanced my ability to deliver reliable features.
